Q5 How did learning in the arts impact your education and life after high school?

I've benefited greatly from the arts in my life. Before I entered kindergarten I learned how to write in cursive. My teacher discouraged it to the extent of sending notes home to my mom. In the 8th grade, I finally had an outlet through a calligraphy class. Art set me up to be a creative adult in both my work and professional life.

Q9 Research has shown that arts education increases student engagement, helps close opportunity gaps, and reduces dropout rates, yet a recent study in King County shows that race and income are barriers to access to the arts. How do you see yourself addressing fair access in your district?

School districts need to create and foster relationships with community-based organizations that are involved in arts education and programming. In addition to access, we need to ensure that it reflects all types of student's cultures and abilities.

Q10 If elected, which of these strategies would you consider to support arts education in your district?

,

Support professional development for classroom teachers

,

Expand district-wide data collection for tracking and accountability

,

Q11 If elected, would you like Arts, Culture & Education updates from ArtsEd Washington?
